DIVE RESORT

## INTRODUCTION

Almost every little place on earth seems to be established, discovered and explored – this speaks for above and below the water level...

We have been fortunate enough to find one of those last untouched places, in the heart of Indonesia, right on the doorstep to one of the most exciting new dive destinations on our planet.

Designed and built specifically with divers in mind, Kalimaya Dive Resort is on the next frontier offering out-of-this-world diving. Nestled away in our private bay, Kalimaya Dive Resort ensures a unique diving experience.

Enjoy the comforts of a boutique diving resort, whilst taking in the tranquility and peacefulness of a beach-front adventure.

Spend your days underwater enjoying beautiful diving and your evenings with new friends in the restaurant, camera room and lounge... or find your own piece of paradise while walking the 400 meter sandy beach of our private bay.

## DIVING

Located in the heart of the coral triangle, Indonesia has some of the greatest marine biodiversity in the world. For this, Kalimaya Dive Resort is perfectly located to provide next level diving year round. At Kalimaya dive resort you can enjoy three distinct types of diving: macro/muck diving, current diving, and coral diving.

- Macro/muck diving is a style of diving where we explore a reef environment to find the weird but wonderful life forms that inhabit these sandy reefs. Our house reef has already provided the following: Bumblebee Shrimp, Paddleflip Rhinopea, Weedy Rhinopea, Candy Crabs, Starry Night Octopus and Bobtail squid among others. Sangean Volcano provides a breeding ground for every nudibranch possible (we counted 35 species on our last visit!) along with Wunderpus, Frogfish and so much more... We recommend Kalimaya House Reef, Lapponia, Pipefish City, Disco Doris and any site located on Sangean Volcano.
- Current diving is what the straight between Kalimaya Dive Resort, West Komodo and Gili Banta are particularly famous for. This style of diving includes drift and pinnacle dives in which the currents wash past us, bringing in nutrients and big schools of fish. These areas are bringing to us bigger, pelagic creatures including but not limited to black-tip, white-tip and Grey reef sharks, oceanic and reef manta rays, mobula rays, eagle rays, schooling tuna and jack fish to name a few... but don't take our word for it, come see it yourself! Highlights include J's Dream, Galley Rock, Rollercoaster, Pannetonne Wall and The Waterfalls. Most current sites also have a partnering secluded, gentle bay - we can adapt for all.
- Coral diving is a nice relaxed way to explore the beautiful underwater gardens and coral reef habitats. Here we take our time to explore sloping reefs, walls, pinnacles, and caverns to enjoy the flora and fauna of these underwater jungles. Get ready to be amazed by some of the healthiest corals in the world which beautiful reef fish and turtles call home. Kalimaya Canyon, Buffalo Wall, Easter Island and Lulu's Hat and are particular sweet spots in this category.

## ACCOMMODATION

DESIGNED BY DIVERS, FOR DIVERS

Wake up to the sun. Situated facing east, all 10 of our bungalows have a direct ocean view so that you can wake up to watch the sun rising over the Komodo Island and Gili Banta Island, and fall asleep to the sound of waves lapping on the ocean.

Through our extensive planning and development, we have made sure to source all available materials from local communities on Sumbawa Island. Our bungalows have been traditionally constructed by Indonesian teams using a combination of Teak and Mahogany sourced from local farms. They have been designed to offer the utmost guest satisfaction while fitting into the natural surroundings full of local flora and fauna.

Kalimaya Dive Resorts initial 6 spacious waterfront bungalows are over 30 square meters (including balcony, room and bathroom) with large queen sized beds, air conditioning, blackout curtains, private open air bathrooms with shower and toilet, plenty of storage space, a work desk and chair perfect for photo editing, and a beautiful private covered terrace to relax after an amazing day of diving.

Our 2 new hillside sea-view bungalows add 4 more rooms to our resort, making up 10 rooms in total, and feature everything our 6 original waterfront bungalows have, including excellent elevated water views allowing a full panoramic viewpoint from the patio. As these double rooms share a common balcony, they are perfect for families, friends, or single travelers to spend some time with your new dive buddies while watching the sea roll in. These bungalows can be easily modified for 2 x twin beds, or pulled together to make a double queen sized bed.

## RESTAURANT & LOUNGE

The Kalimaya restaurant and lounge is a beautiful open space where guests can relax in comfort enjoying a drink by the pool, relaxing on the sofas reading a book, or socializing.

As we are a small yet sociable resort, all meals are served family style on our giant communal tables. We offer a variety of dishes influenced by Indonesian, Asian, and international cuisines to keep your taste buds entertained.

Located between two small villages which primarily rely on fishing and farming to survive, we try to locally source as many ingredients as possible. By developing connections with these villages it not only provides the opportunity to support the local community, but it also provides the freshest ingredients available to make the most delicious food. All fish (when available) is sourced by traditional practices, usually via outrigger boat using a small net, or a canoe with a single line and hook.

Breakfast includes a cold buffet consisting of fruit, home made toast, and cereals, as well as a hot A la carte selection for you to choose from including but not limited to: eggs your way, spinach, beans, mushrooms, hash-browns, bacon, and sausages.

Lunch is a two course service including appetizer and main which will be served 30 minutes after the boat returns from diving.

A delicious afternoon snack will be served at 4pm.

Dinner is a three course service including appetizer, main, and home made dessert served at 8 pm.

At least once a week we offer a barbeque night giving you the chance to enjoy local grilled chicken, fish, and vegetables.

As part of your stay coffee, tea, and drinking water are available self-serve, free of charge in the restaurant. Soft drinks, fresh juices, and local beer are available for purchase throughout the day.

Should there be a special dietary requirement, we can cater for your needs with advanced notice.

Please feel free to bring your own alcohol as there is no corkage charge at Kalimaya Dive Resort!

# LOCATION

Located in East Sumbawa - which is to the East of Bali and Lombok and to the immediate west of Komodo National Park and Flores island - getting to Kalimaya Dive Resort is surprisingly easy. Kalimaya Dive Resort is located only 20km north of the Sape ferry terminal for guests arriving by PELNI ferry from Labuan Bajo.

Bima Airport (Airport code BMU) also caters to flights from Bali Denpasar (DPS) within 60 minutes, Lombok (LOP) within 50 minutes, and Makassar; we can help you get to the resort and into your vacation as quick as possible.

We are happy to help our guests in arranging local car transfers from both Sape Ferry Terminal and Bima Airport:

- One Way Bima Airport Transfer - Estimated Travel Time 90 minutes each way
- One Way Sape Ferry Terminal Transfer - Estimated Travel Time 15 minutes each way

If you do not arrange a car transfer with us in advance then you will need to self arrange in-airport in Bima or in-ferry terminal in Sape and it could be difficult if you do not have a good understanding of the Indonesian language. There are no public transport options at this time.

**VERY IMPORTANT:** It is your responsibility to get in touch with us directly on [info@kalimayadiveresort.com](mailto:info@kalimayadiveresort.com) for arrangement of any airport or ferry terminal car transfers you require, and reconfirm with us your arrival information. As our driver is positioned at the resort so we cannot arrange transfers without having at minimum 48 hours notice should you not be able to arrange it yourself.

We highly recommend our guests use our driver services.

DIVE RESORT

## ABOUT US

Kalimaya Dive Resort was shaped by the vision of 6 diving professionals who, with a love of the ocean, craved to deliver the ultimate diving experience to an uncharted frontier area, free of other divers and resorts to ensure privacy and satisfaction.

You will find a little bit of each of us in every detail at Kalimaya Dive Resort.

## DIGITAL DETOX

Wifi is currently not available at Kalimaya Dive Resort.

It is possible to use a local sim card to have phone signal and sometimes 2G & 3G internet connection in some areas of the Resort. Please note that even this way, the internet connection is not very reliable.

With the world being so busy and connected these days, we hope you can use the time at Kalimaya Dive Resort to enjoy a digital detox.
